GIFFARD WON WHITE ROCK CUP

Enthusiastic Golfers Perform Well in Miserable Weather.

The twenty-sixth tournament for the White Rock golf cup was played at the Country Club yesterday, in about as miserable weather as could have happened.

The rain, however, did not deter twenty-one of the entrants from having a crack at the mug, of whom twelve turned in their cards.

The backmarkers had all the best of the play, several of the limit men managing to get entirely lost.

Harold B. Giffard won from scratch with a net score of 85. T. Gill was next best, a couple of points to the bad and playing from the 5 mark.

Although Giffard has come near winning the cup on several occasions yesterday was the first time he has actually done the trick. The only other players who have won more than one tournament are Austin White and W. Simpson, both of whom participated in yesterday's play.

CHAMPION WHO PASSED THROUGH

B. R. Day, champion middle-distance runner of the world, who passed through here recently on his way to Australia, has sent word of three days' sport to be held in Newcastle during Easter week and in which he will take part. The greatest galaxy of athletic talent ever gathered in England will compete. Among the famous runners are E. Eastman, champion sprinter of the United States and Canada; Arthur B. Postle, world's champion sprinter and W. Growcott, champion sprinter of Great Britain.

The events are to be under the auspices of the Newcastle Athletic Club. Prizes aggregating \$1000 are offered. The meet will be in charge of Rufe Naylor.

Day while here tried to arrange an exhibition but no promoter could be found willing to handle the affair.

THE SAME OLD PUGILISTIC STORY

LOS ANGELES, March 4.—Jimmy Britt and Battling Nelson went ten rounds to a draw last night at the local fight house. It was the old story of the Battler going on all the time and James Edward going away from him and jabbing with his left to the jaw and head and occasionally shooting his right over, but not with enough stuff behind them to bother the Dane. There is no doubt but that Britt landed the majority of the punches, but Nelson did not stop for an instant and has to be given credit of having the best of the two hardest rounds, the sixth and seventh. In both of these innings the "Mayor of Copenhagen" got to the Britt boy with a lot of rough stuff that started the crowd yelling "Nelson." At that Jimmy was not badly hurt and had he held the Battler down to anything like an even break in these two rounds could have been given the decision. This was Britt's first appearance before a local audience, who did not understand his peculiar method of defense, and were more or less carried away with the rough manner with which the Nelson lad tried to fight at close quarters. But Britt covered and ducked during the spells of infighting and made Nelson miss in a manner that prevented his rugged opponent from doing any damage. Jimmy fought his own fight in his cool way and paid no attention to the yells of the crowd, urging him

to go in and mix it with the Battler. For the first five divisions the Britt boy kept jabbing his left to the Dane's jaw and occasionally would slip his right over and get away with practically no return. In the sixth, however, Bar hooked a hard right that caught James Edward over the kidneys that hurt and in a slugging match got away with the long end of the round. Again in the next stanza Nelson put his left to Jimmy's jaw that jarred him and kept following him with lefts and rights that had Britt covered up. The eighth was an even break, but the last two showed James Edward to advantage and doing the better work. There is no doubt that a shade decision would have favored Britt, as he outlanded Nelson by a vast majority. Neither man was very badly damaged, Britt getting a cut over the eye in the early rounds from the Battler's head, and the roughhouse lad carries a bruised nose.

CAREY'S COLT'S INITIAL WORK

There will be a meeting of the Maui Jockey Club on the first Saturday in April. New officers will be elected and a program for the Fourth of July arranged. It is the intention of the club to give the best meet that Maui has ever had.

Dr. J. J. Carey's brown colt, imported from the Coast, was given his first gallop last week and covered a half in 1:05 on a wet track.

Dan Carey's pacer Luke R. has been blistered and is now doing gentle work. This a green horse and has no record, reports to the contrary notwithstanding.

Jim McAniff is looking after both the Carey horses.

There is some talk of the colt being matched against a Japanese horse owned at Punene, but so far nothing definite has been done in the matter. The Japanese expect the runner Eiko to beat anything on the island at the coming meeting. This animal won several races at Spreckels park last year.

BRICKBATS FOR POOR OLD BARNEY

The Boston fans have finally become jerry to Barney Joy, and he has been warned to keep away from the hub city. Cal Ewing received a letter from President George B. Dovey of the Boston club yesterday, asking him to find a job for Barney in some other league. The writer intimated that if Joy appeared in Boston the fans would meet him at the station with bunches of brickbats instead of flowers. Ewing has washed his hands of the big Kanaka. His only hope is that Barney remain in the land of pol, where he figures stronger than in San Francisco or Boston.—S. F. Chronicle.

The Bostonians evidently do not appreciate the value of Barney Joy, as Manager Long received a letter from the "Beany City" yesterday, stating that they would be glad to dispose of his valuable services if he knew of a prospective purchaser. Long is unable to oblige.—S. F. Chronicle.

Log of Yacht Anemone

Through the courtesy of Commodore Clarence Macfarlane, the Advertiser is enabled to publish the log of the ketch Anemone, which finished second in the first transpacific yacht race, sailed two years ago.

Only three copies of the log were printed, and the other two are on the mainland. The log was written up by the late Prof. Louis A. E. Ahlers and is of remarkable interest, particularly at the present time, when the second

until Dame Venus blinked on the edge of the horizon, all ready to take her nightly dip, and then we went below, and in three minutes had forgotten past, present and future.

Let new experiences, that must crowd upon us all, efface the memory of those pleasant days, I jotted down, from time to time, some of the things we said or did. Some day, when we are harassed and wearied by the strenuous demands of business, professional and social life on shore, the recalling of the simple, happy life on the Anemone may help us to see things in

THE ANEMONE.

race across the Pacific is only a few months off.

The compiler of the Anemone's log died recently on the mainland, and this fact lends additional and pathetic interest to the record.

Prof. Ahlers was in love with the islands, and almost his last words were that he hoped that the land to which he was journeying would be as pleasant a one as the Hawaiian Islands.

In a note on the flyleaf of the log, Ahlers wrote:

"Dear Macfarlane: It is a long time since we said good-bye to your island of sunshine and laughter, but we do not forget you. Many times I have wished you might be with us—when we were happy together."
"Aloha."

The log is prefaced as follows:
To Charles Leaming Tutt, Edward C. Stimson and Thayer Tutt.

My Dear Shipmates: Many a time last summer, as we sat on the deck of the Anemone, dreamily watching the stars, at peace with all the world and with the cook, Tutt said:

"Won't we have fun in the years to come, recalling these days of contentment?"

Then Thayer laughed his merry laugh, and said, "You bet we will," and Stimson moved his deck chair a little nearer and began: "That reminds me; did you hear the story of—?" There we sat and listened

their real value, and give us courage to throw off burdens we really need not carry. "So long."

LOUIS A. E. AHLERS.
Colorado Springs, December 20, 1908.
THE TRIP FROM NEW YORK.

The Anemone was built by Camper & Nichols, Gosport, England, in the year 1899. She was the fourth of her name, as the brass plate on her rudder-post and the letters on her deck-mats still show. She is ketch-rigged, and has auxiliary steam engines that can drive her about six knots an hour. Her dimensions and capacity are as follows: Waterline length, 92 feet; length over all, 115 feet; beam, 19 feet 6 inches; draft, 12 feet; gross tonnage, 118.10. She is built throughout of teak wood; saloon and staterooms are finished in black walnut and bird's-eye maple. The crew's and officers' quarters and galley are forward; the saloon and staterooms midship; the engine, boiler and storage rooms aft. Saloon and staterooms are beautifully furnished, commodious and airy, with plenty of headroom. In addition to high skylights, all the staterooms have portholes.

The Anemone's rig is designed for ocean cruising—she can carry her mainsail in almost any sort of weather. The comparatively small sail area is, nevertheless, sufficient to make her go over eleven knots an hour, when conditions are favorable. Having plenty of freeboard, her decks are dry, unless the weather is quite rough.

She has no whims, and handles and steers very easily.

The yacht changed owners soon after she was launched, and was brought to New York by a member of the N. Y. Yacht Club. Mr. Tutt bought her in the fall of 1905, and sent her round the Horn to the Pacific Coast. On this trip she started December 13, 1905, with Henry Lindberg as sailing master. The latter's log shows an average cruise for winter sailing, with enough rough weather to thoroughly test the boat. The only serious accident of the trip occurred January 5, in Lat. 14 deg. 29 min. N., Long. 45 deg. 15 min. W., when a cleat, to which the main topmast brackstay was fastened, carried away. Down came the main topmast, completely destroying the jib topmast, and badly tearing the balloon staysail. Mast and sails were mended at once, and the new rig tried out for six days of stormy weather encountered just north of the equator.

From February 19 to March 18, the Anemone bucked bad tides and head winds in the Magellan Strait. During nearly the whole trip the captain struggled with a negligent cook and an incompetent mate (so the log reads). On May 8, after a cruise lasting 145 days, the Anemone anchored in San Diego harbor.

In San Diego Mr. Tutt joined the yacht and set to work at once to prepare her for the transpacific race. She was put in drydock, her propeller removed and bottom overhauled. The hull was found to be in first-class shape. A new main topmast and gaff were put in, and new standing rigging. A set of sails, ordered by telegraph from Ratsey & Laphorne, New York, arrived at San Diego just ten days after being ordered.

Then the ship was painted, provisions were laid in, and she was ready for sea again.

KALIHI ATHLETES WILL ENTERTAIN

The Kalihi Athletic Club will give a concert and dance on Saturday evening, May 2, in the K. of P. Hall, in order to raise funds for the purpose of putting up a clubhouse.

Although recently organized, this club has already made great strides toward promoting the welfare of its members, and in giving this dance for the purpose of attaining one of the objects of the club, the members are confident of success.

The best talent the city can afford will be secured for the concert, and no one who has the interests of sport at heart should miss this opportunity of enjoying a musical treat.

The Royal Kawaihau Glee Club will furnish music for the occasion, and the manager, Sam Nainoa, has already composed a march in honor of the Kalihi Athletic Club, which will be a special feature of the program. Tickets will be out in a few days, to be obtained from the members of the club.

ALL OFFICERS NOW CHOSEN

A. K. Vierra Elected President of Riverside Baseball League.

The Riverside Baseball League held a meeting yesterday at 10 a. m. at its temporary quarters in the Judd building, to complete organization and get things in shape for the coming season, which promises to be one of the best yet.

The meeting was well attended and beside the representatives of the five clubs, a number of interested spectators were present.

The officers present were A. L. C. Atkinson, president of the league; W. Tin Chong, secretary; Edward Ayau, auditor; and the following members: B. H. Kelekolo, K. Yasumori, A. K. F. Yap, Albert Akana, Hon. S. P. Correa and John Notley, attending to the interests of the Chinese A. C., Japanese A. C., Kaala A. C., Chinese Aloha Club and the Palama A. C.

The first order of business was the election of a vice president, which was continued from the last meeting. A. K. Vierra, who is president of the Kanihale League, was selected to hold this position. This completed the set of officers for the year 1908, which is as follows: A. L. C. Atkinson, president; A. K. Vierra, vice president; W. Tin Chong, secretary; Robt. Asam, treasurer, and Edward Ayau, auditor. Beside these there is a Board of Arbitration, which consists of President Atkinson, Chas. Falk and John Wise.

The report of the committee on the constitution and by-laws was read and approved with a few amendments. The proposition to permit old league players to participate in the games during the coming season was killed. S. P. Correa made a strong plea against this suggestion and he succeeded in his efforts.

The league also selected a committee of five to consist of the manager of each team, to arrange the schedule. It is proposed to start the season during the latter part of next month.

The meeting adjourned to meet again at the call of the president of the league, at which time the official umpire and scorer will be appointed.
